

Ansh Patel

+91-9662102423 — Hyderabad, India — anshpatel42002@gmail.com — LinkedIn — Portfolio — GitHub

Technical Skills

Programming Languages: C++, C#, GLSL, TypeScript, Java, C

Game Engines & Graphics: Unity, Unreal, OpenGL, Photon, Three.js

Libraries & Tools: GLFW, GLAD, GLM, Assimp, ImGui, ImGuizmo, CMake, Git, Perforce, Jenkins

Work Experience

Game Programmer

Aug 2025 – Present

Xansr Technologies, Hyderabad, India

- Developed gameplay systems, playable characters, and live event features for Temple Run Plus.
- Resolved Apple Arcade build rejections and platform compliance issues for Temple Run Plus.
- Optimized S3 caching through CloudFront configuration, reducing infrastructure costs by 50%.

Game Programmer

Aug 2024 – Aug 2025

Funcell Games, Ahmedabad, India

- Developed a multiplayer metaverse experience using Photon for real-time player interaction.
- Designed responsive cross-platform UI for mobile and PC platforms.
- Built 20+ lightweight playable ads using a Three.js-based engine under 5MB, achieving 85–120% CTR uplift.

Game Programmer Intern

Feb 2024 – Jul 2024

Xansr Technologies, Hyderabad, India

- Developed reusable gameplay systems including Asset Pipeline and FTUE workflows.
- Implemented Shop, Ad Manager, and Reward systems to support scalable monetization features.

Projects

Eternal Engine (C++ / OpenGL)

GitHub

- Developed a custom game engine in C++ and OpenGL, featuring a real-time editor, component-based architecture, hierarchical GameObjects, a material system, and a modern rendering pipeline with directional, point, and spot lighting.
- Integrated Assimp, GLFW, GLAD, GLM, ImGui, and ImGuizmo, while configuring a cross-platform CMake build system for automated dependency management and project setup.

Real Money Dice Game (Unity)

Video

- Developed synchronized timer logic using server-driven time to ensure consistent gameplay across all players and devices.
- Implemented realistic dice-throwing mechanics with custom physics simulation in Unity.

RPG Combat (Unreal Engine)

GitHub

- Developed combat mechanics with enemy AI, state machines, and controller support.
- Implemented save/load system and optimized gameplay performance.

Education

Master of Science in Game Technologies

09/2026 – 08/2028

Bonn-Rhein-Sieg University of Applied Science, Germany

Bachelor of Engineering in Information Technology

2020 – 2024

Gujarat Technological University, India

CGPA: 8.61/10 (German Grade: 1.7)

Languages

English (B2), German (A2), Hindi (C1), Gujarati (Native)
